PAVIT DOUBLE TUBE PIPE
DOUBLE TUBE
BRIAR PIPE

These celebrated pipes, which have obtained the most universal use throughout the army, and wherever they have been circulated, are now for the first time introduced into this State.

The difference between these and others is in the nature of the tobacco which is used. In these pipes, the smoke is kept entirely separated from the nicotine and so, it is, thus not only rendering the smoke more pleasant to the taste, but also preserving the pipe for years from all of its infirmities.

They are universally acknowledged to be the most luxurious, Economical and Healthy Pipes in Use.
